

Processor: Intel Core i5 / Ryzen 5 / Apple M1\*

Operating system: Microsoft Windows 10 / Apple MacOS 10+

Memory: 8 GB of Ram

Storage: 512 GB of internal storage

Network adapter: 802.11 G or N 2.4/5 GHz wireless adapter

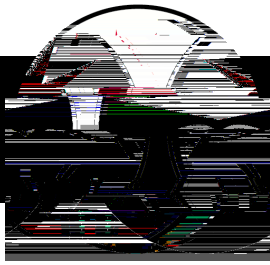

Additional requirements for Windows users: Windows 10 Home or Pro edition, 64-bit operating system, and internet access. For Mac users, ensure you have the latest version of macOS installed. For more information on system requirements, visit [this link](#) to check compatibility before you purchase a Mac with the M1 chip.

It is important that you have a modern operating system and web browser to access Blackboard and other NGU-related sites. Supported operating systems are Windows 10 and MacOS 10+.

The latest versions of Google Chrome, Mozilla Firefox, Microsoft Edge, and/or Apple Safari will be needed to get access to campus resources. Google Chrome is recommended for highest compatibility for Blackboard access. Allow third party cookies and turn off pop-up and content/ad blockers. For more information on browser requirements, visit [this link](#) (\_\_\_\_\_).

Here is a link for more details about [this link](#)

Both Android and iOS devices will work with the Blackboard app, downloaded from the appropriate

# NGU Online

[Adobe Acrobat Reader DC](#) allows you to view and print PDF (Portable Document Format) files. Make sure to uncheck any unwanted software add-ons before you download this software.

As a student of NGU, you have access to Microsoft Office 365 for free. To download, log into \_\_\_\_\_ with your NGU email, username, and password. After installing, you will be able to take advantage of all of the Office applications for PC and Mac, as well as 1 TB of free cloud storage with your school account.

Please visit our \_\_\_\_\_

Alternatively, you can send an email to \_\_\_\_\_ or call the Help Desk at (864) 977-7272 during campus business hours.
